New York

Lance Brasher is a corporate attorney concentrating in M&A, tax equity, financing and development transactions involving energy, infrastructure and critical minerals assets in the United States and around the world. He previously served as global head of Skadden's Energy and Infrastructure Projects Group.

Mr. Brasher advises strategic investors, developers, borrowers, tax equity, funds, lenders and utilities in all phases of their renewable energy generation projects; gas power generation, electric transmission and distribution assets; LNG and pipelines; hydrogen and ammonia projects; carbon capture facilities; critical minerals projects; EV charging; and transportation, water and sports infrastructure.

Mr. Brasher has been repeatedly recognized as a leading lawyer by publications such as *Chambers Global* and *Chambers USA*, where he is noted for his "great breadth of knowledge in the renewables industry" as well as "enviable strength in matters pertaining to traditional power and infrastructure projects." In addition, clients tell *Chambers* he "knows the energy and power sector inside and out, so he is well versed in current trends and external disrupters in the industry." Mr. Brasher also has been recognized by the *Latin Lawyer 250* for his work on energy and infrastructure projects in Latin America and by *Best Lawyers in America*, which named him its 2024 and 2019 Washington, D.C. Project Finance Law Lawyer of the Year. In addition, he was named one of Lawdragon's 500 Leading Energy Lawyers in 2024.

Representative transactions include:

- 8point3 Energy Partners in connection with its \$775 million term loan and revolving credit facilities
- Bank of New York Mellon in:
