Biophysics and Biochemistry, 2001

Bar Admissions

New York
U.S. Patent and Trademark Office

Resa Schlossberg is head of Skadden's intellectual property and technology transactions practice. She advises clients in numerous industries on a wide range of IP-related issues, focusing on life sciences and technology-intensive representations. Her knowledge of molecular biophysics and biochemistry and research experience allow her to understand the scientific and technical aspects of matters.

Ms. Schlossberg structures, drafts, negotiates and advises on joint ventures, strategic alliances, mergers and acquisitions, and agreements such as license, research and development (R&D), collaboration, co-marketing and co-promotion, manufacturing and supply, R&D funding, synthetic royalty deals and consulting. She also conducts IP diligence and evaluates technologies for clients, including pharmaceutical, chemical, biotechnology, cosmetic, medical device and renewable energy companies, among others.

In addition to transactional work, Ms. Schlossberg has significant experience litigating patent infringement disputes in U.S. federal court, representing clients in false advertising and consumer deception matters and counseling on various strategic IP issues. She is a registered patent attorney with the U.S. Patent and Trademark Office.

Ms. Schlossberg was named one of the Top 250 Women in IP and a Transactions Star by *Managing IP* in 2024 and 2023, recognized among LMG Life Sciences' top practitioners for Licensing & Collaboration and Mergers & Acquisitions, and selected to *Intellectual Asset Management's* IAM Patent 1000, where she is described as a "master at executing a deep dive into target and competitor portfolios, formulating strategies, structuring deals and successfully negotiating them."

She is a member of Skadden's Diversity, Equity & Inclusion Committee and previously served as a hiring partner and co-chair of the Hiring and Summer Associate committees for the firm's New York office.
